The Intersectionality of the Four Crimes and Homelessness

11

11

Mississippi has the lowest rate of homelessness in the United States. In 2023, the state had roughly 1,000 people experiencing homelessness, with the majority concentrated in the Jackson metro and Gulf Coast areas. While Mississippi has a low overall rate, the 2024 point-in-time report indicates that a significant portion of the state's homeless population is unsheltered.
